Table of Contents

UX Design

The following is a list of ideas for features that could be implemented on the LearnEasy and TeachEasy home screens. Ideas by Dan Berhe as the developer of functionality, discussed with Lewis Thresh as home screen GUI developer.

1.0 LearnEasy home screen requirements

Option	Function
Open existing lesson	Opens the last lesson that was run
List recent lessons	Lists previously opened lessons

Figure 1 – A table to demonstrate how a table should look

2.0 TeachEasy home screen requirements

Option	Function
Example lesson	Opens a guide on how to create a lesson
Create new lesson	Opens a blank lesson
Open existing lesson	Opens an existing lesson
Recent lessons	Opens a list of recently worked on lessons
Report	Report a bug through email
